Current position

PhD Student

Memory & Cognition Lab', Institute of Psychology, University of Sorbonne Paris Cité, Paris, France
Center for Psychiatry & Neuroscience, INSERM U894, Sainte-Anne Hospital, Paris, France

Education

2014–18

DOCTOR OF PHILOSOPHY (PhD)

Neuropsychology, University of Sorbonne Paris Cité, Paris, France

Thesis. Beyond Reality: Neuropsychology of the Sense of Reality and its Relationship with Emotion Regulation, Memory and Consciousness.

Supervisor. Pr. Serge Nicolas

2014–17

CERTIFIED PSYCHOTHERAPIST

Cognitive-Behavioural Therapy (CBT), French Association for Cognitive-Behavioural Therapy (AFTCC), Paris, France

Thesis. Cognitive and Behavioural Therapy of two Patients: One suffering from Motivation Disorder associated with Dysthymia and the other from Social Anxiety.

Supervisor. Sophie Kindynis

2012–14

MASTER OF SCIENCE (MSc) - LICENCED PSYCHOLOGIST

Neuropsychology and Cognitive Psychology, University of Sorbonne Paris Cité, Paris, France

Second year Thesis. How the Study of Emotions in Schizophrenia enlight the Paradox of Fiction.

Supervisor. Pr. Pascale Piolino

First year Thesis. The Cognitive Development of the Aesthetic Judgement in Children and Adults ([see talk](#)).

Supervisor. Pr. Sandrine Rossi

2009–12

BACHELOR OF SCIENCE (BSc)

Psychology, University of Sorbonne Paris Cité, Paris, France

Research Topic and Scientific Interests

In 1896, the Lumière brothers presented a 50-seconds long movie of a train's arrival at a station. Intense fear and awe rose up among the audience, as if they could not believe that it was not a real train. Several decades later, the edges of our reality still continue to fade. Through virtual reality, augmented reality and new forms of fictions, simulations of all kind populate our everyday experience and challenge our intuitive *feeling* and *belief* concerning its reality. Understanding the neurocognitive processes underlying this sense of reality is what drives my research. This topic is heavily connected with others levels and states of the Self such as minimal consciousness, mindfulness, attentional absorption, presence or dreams and has an obvious echo in several neuropsychiatric diseases such as schizophrenia, PTSD or depersonalisation-derealization disorder. As it also shares a strong relationship with emotional processing, modifications of the sense of reality might be at stake in some forms of voluntary or involuntary emotion regulation mechanisms (such as distancing, decoupling, defusion, decentering or fictional reappraisal).

More generally, my scientific interests also include the following topics:

- *Emotion Regulation*. The unicity and diversity of emotion regulation strategies, its structure and alteration in neuropsychiatric diseases.
- *Consciousness*. The different levels and states of consciousness and their neural correlates.
- *Neuropsychological Practice*. Developing tools that will improve the efficiency and accuracy of neuropsychological examination and diagnostic.
- *Neuroaesthetics*. The cognitive processes involved in the aesthetic experience and judgement.
- *Statistics, Programing and Methodology*. The application of cutting-edge statistical procedures (artificial intelligence) on neuropsychological data. Also interested in scientific good practises and reportability (with a special focus on open-access and reproducibility).
- *History of Psychiatry/Neuroscience*. The origin of modern neuroscience and psychology, with a special focus on the romantic era and *La belle époque* (19-20th centuries).
- *Philosophy*. Phenomenology, radical determinism, transhumanism as well as the links between oriental philosophies/religions (e.g., Buddhism and Hinduism) and modern knowledge.

Experience

Research

2012 INTERNSHIP
Developmental Psychology Lab' (LaPsyDé), University of Sorbonne Paris Cité, CNRS UMR 8240, Paris, France

Activity. Data collection for an experiment on emotions and mental rotation ([Borst, 2016](#)).

Supervisor. Pr. Grégoire Borst

2011 INTERNSHIP
Memory & Cognition Lab' (LMC), Institute of Psychology, University of Sorbonne Paris Cité, Paris, France

Activity. Experiment creation and data collection for a study on memory, salience and bizarreness effect.

Supervisor. Pr. Serge Nicolas

Teaching

ADDITIONAL TRAINING

2017 ACADEMIC TEACHING CERTIFICATE
University of Sorbonne Paris Cité, Paris, France
Five-days long training in pedagogy and innovative teaching.

ACADEMIC

2017–18

LECTURER

University of Sorbonne Paris Cité, Paris, France

Subject. **Clinical Neuropsychology** (for bachelor and master degrees).

Supervisor. Pr. Isabelle Jambaqué

Topics. **Neurology and psychiatry** (main neurodegenerative, neurological and psychiatric disorders), **assessment** (examination, diagnostic, psychometry), **rehabilitation and psychotherapy** (CBT, mindfulness-based therapies, cognitive rehabilitation, practice supervision), **general neuroscience and psychology** (neuroanatomy, emotion regulation...).

Activity. 192 hours, performed all regular duties of a T.A. plus course creation and organisation.

2015–17

TEACHING ASSISTANT

University of Sorbonne Paris Cité, Paris, France

Subject. **Differential cognitive psychology** for first year students.

Supervisor. Dr. Christophe Mouchiroud

Topics. **Experimental methodology** (**assessment** and related problems, scientific reasoning, **psychometric properties** of tests and questionnaires, **statistics**...) and introduction to concepts such as **intelligence, personality** and **creativity**.

Activity. 144 hours, performed all regular duties of a T.A. for classes size of 40 including lectures, office hours and marking.

2014–16

TUTOR

University of Sorbonne Paris Cité, Paris, France

Activity. Helping bachelor students on their mentoring programme (mainly **cognitive psychology, psychopathology** and **neuroscience**). Approximately 1h per week.

2014–16

TEACHING ASSISTANT

University of Sorbonne Paris Cité, Paris, France

Subject. **Cognitive psychology** for third year students.

Supervisor. Pr. Todd Lubart

Topics. Models of **working memory, mental imagery** and **categorisation**.

Activity. 48 hours, performed all regular duties of a T.A. for classes size of 40 including lectures, office hours and marking.

2013

TEACHING ASSISTANT

University of Sorbonne Paris Cité, Paris, France

Subject. Introduction to the use of Internet and on-line university services for first year students.

Supervisor. Dr. Christian Fondrat

Topics. Internet security, anonymity, legal rights, course organisation.

Activity. 16 hours.

SCIENTIFIC

- 2015–17 INSTRUCTOR
Introduction and Basic Statistics using R
What. Short within-lab' trainings (2h) for master and PhD's students on statistics using R.
Where. Memory & Cognition Lab'.
- 2015–16 INSTRUCTOR
EDA, ECG, Facial EMG: Theory and Practical Signal Acquiring
What. Short within-lab' trainings (2h) for master and PhD's students on how to acquire electrophysiological (EDA, ECG, EMG) signal using Biopac® and the AcqKnowledge software.
Where. Memory & Cognition Lab'.
- 2015–16 INSTRUCTOR
The Anamnesis in Clinical and Experimental Psychology
What. Short within-lab' trainings (2h) for master students on how to ask and handle sensitive personal information about patients or participants.
Where. Memory & Cognition Lab'.

SUPERVISION

I have supervised nine third-year psychology students during their lab internship and ten master students (studying neuropsychology and cognitive psychology) for their master thesis.

Clinical Activity

ADDITIONAL TRAINING

- 2016 MASTER CLASS: MINDFULNESS BASED ON COMPASSION AND INSIGHT (MBCI)
Institute for psychiatry, Sainte-Anne Hospital, Paris, France
Two-days long training on mindfulness based rehabilitation.
- 2016 FIRST AID CERTIFICATE
University of Sorbonne Paris Cité, Paris, France
Two-days long training.

PSYCHIATRY

- 2013–14 INTERNSHIP (512 H)
Department of adult psychiatry (Pr. Philippe Fossati)
Pitié-Salpêtrière Hospital, Paris, France
Supervisor: Dr. Séverine Hatif
Activity. Assessment and diagnostic of psychiatric or neurological illnesses among adults, as well as development and application of cognitive rehabilitation programs.
- 2012–13 INTERNSHIP (304 H)
Department of geriatric psychiatry (Dr. Thierry Gallarda)
Sainte-Anne Hospital, Paris, France

Supervisor. Emmanuel Guiliano

Activity. Assessment and diagnostic of psychiatric and neurological illnesses among an elderly population.

NEUROLOGY

2012–13

INTERNSHIP (96 H)

Department of gerontology

La Porte Verte Hospital, Versailles, France

Supervisor. Sophie Fleury

Activity. Observation of assessment and diagnostic of memory related deficits such as neurodegenerative diseases, somatic ageing-related illnesses or depression.

Skills

Language

French: Native proficiency

Polish: Native proficiency

English: Fluent

German: Limited working proficiency

Italian: Limited working proficiency

Neuroimaging

I am currently proficient with the processing and analysis of electrophysiological data, including EEG (ERP, time-frequency, micro-states), **biosignals** (EDA, ECG and facial EMG) and their integration.

Biosignals (Biopac®, AcqKnowledge®)

- Electrodermal Activity (EDA): *Full proficiency*
- Electrocardiogram (ECG): *Full proficiency*
- Facial Electromyography (fEMG): *Full proficiency*
- Eye tracking: *Theoretical knowledge*

EEG (MNE, BrainVision®, Geodesic®, Fieldtrip)

- Event-Related Potentials (ERPs): *Full proficiency*
- Time-frequency: *Intermediate proficiency*
- Micro-states: *Intermediate proficiency*
- Source localization: *Beginner*

MRI (SPM, FSL)

- Functional (fMRI): *Theoretical knowledge*
- Connectivity: *Theoretical knowledge*

CREATIONS AND CONTRIBUTIONS

- **NeuroKit** (*main author*): Open-source python module for statistics and neurophysiological signal processing (EEG, EDA, ECG, EMG...).

ADDITIONAL TRAINING

2017	MULTISCALE NEURODYNAMICS OF EMOTIONS AND THEIR PATHOLOGIES: FROM OSCILLATIONS TO COMPLEX NETWORKS University of Lille, Lille, France <i>one-day long (8h) training on innovative EEG analysis methods in emotion research</i>
2016	INTRODUCTION TO EYE TRACKING Memory and Cognition Lab', University of Sorbonne Paris Cité, Paris, France Multiscale Neurodynamics of Emotions and their Pathologies: from Oscillations to Complex Networks <i>one-day long (5h) training on signal acquisition and processing with the SMI system</i>
2016	HOW TO GET GREAT EDA (ELECTRODERMAL ACTIVITY) DATA Biopac webinar <i>one-day long (4h) training on acquiring and processing of EDA</i>
2015	fMRI AND CONNECTIVITY National Institute of Nuclear Sciences & Techniques (INSTN), Marseille, France <i>Four-days long (32h) training with Dr. Jorge L. Armony on fMRI and connectivity</i>
2014-15	fMRI : PREPROCESSING AND ANALYSIS Sainte-Anne Hospital, Paris, France <i>Four-days long (32h) training with Dr. Sylvain Charron on fMRI data analysis</i>
2014	SIGNAL PROCESSING THEORY AND APPLICATION FOR EEG Ecole Supérieure de Physique et de Chimie Industrielle (ESPCI), Paris, France <i>Three-days long (24h) training with Dr. Francois Vialatte on signal theory and its application for EEG</i>

Statistics / Data Science

I use **R** and **Python** for data analysis. My knowledge is oriented toward the fields of *structural modelling* (mixed-effects models and structural equations), *predictive modelling* (artificial intelligence, machine learning) and *multivariate statistics* (network analysis, data mining). I'm more generally interested in good practices in statistics (Bayesian framework, reporting, reproducibility, open-source solutions) and their use in psychology and neuroscience.

CREATIONS AND CONTRIBUTIONS

- **psycho** (*main author*): R package (see [technical publications](#)).

ADDITIONAL TRAINING

2015	STATISTICS AND R FOR THE LIFE SCIENCES Harvard University, MA, USA <i>Online EdX course (16h).</i>
2014	MACHINE LEARNING AND BRAIN-TO-COMPUTER INTERFACES École Supérieure de Physique et de Chimie Industrielle (ESPCI), Paris, France <i>Two-days long (16h) training with Dr. Francois Vialatte on machine learning and its application for Brain-Computer Interface.</i>
2014	INTRODUCTION TO STATISTICS WITH R Paris Sud University, Paris, France <i>MOOC (40h).</i>

Programming

I use **Python**™ on a daily basis and have a working knowledge of **Matlab**™. I am currently learning **Julia**™. I'm also familiar with traditional experiment creation tools such as **E-prime**®, **PsychoPy**® or **OpenSesame**®.

CREATIONS AND CONTRIBUTIONS

- **Neuropsychia.py** (*main author*): Open-source python module for creating experiments, tasks and questionnaires (see [technical publications](#)).

ADDITIONAL TRAINING

2016	SCIENTIFIC PROGRAMMING WITH PYTHON AND SOFTWARE ENGINEERING BEST PRACTICES Telecom ParisTech <i>Two-days (16h) long training on advanced python programing</i>
2016	P4N 2016: PYTHON FOR NEUROSCIENCE (AND PSYCHOLOGY) University of Nottingham, Nottingham, UK <i>Three-days long (24h) training with Dr. Jon Peirce, the creator of Psychopy</i>

Media Processing

I use **LaTeX** and Markdown for scientific reports. I'm also proficient with several media processing softwares such as **Adobe Photoshop**™, **Adobe Illustrator**™, **Inkscape**, **Avidemux** and the **Microsoft**®Office suite.

Miscellaneous

Grants, Honours and Awards

2014 PhD ministerial scholarship (3 years - 80 000€)

Collaborations

TRANSDISCIPLINARY COLLABORATIONS

- **Philosophy:**
 - [Fiction project](#): Dr. J. Pelletier (France), Dr. S. Lemaire (France), Dr. J. Dokic (France), Dr. M. Arcangeli (France).
- **Bioengineering:**
 - [NeuroKit development](#): R. Bartels (Brazil), N. Vack (USA), C. Carreiras (Portugal).
- **Statistics:**
 - [psycho development](#): Dr. V. Simko (Germany).

Responsibilities

2016–18 ELECTED REPRESENTATIVE
ED261-3CH doctoral school, University of Sorbonne Paris Cité, Paris, France
Elected PhD students' representative at the doctoral school council.

2014–18 WEBMASTER
[La bibliothèque du neuropsychologue](#)
A scientific and philosophic books review blog.

2014–15 COMMUNITY MANAGER
Memory & Cognition Lab', University of Sorbonne Paris Cité, Paris, France
In charge of organising seminars, local conferences and social events.

2009–12 ACTIVE MEMBER
Student's Union, University of Sorbonne Paris Cité, Paris, France
In charge of organising social events for students.

Other Education

2017–18 *History of Arts* (74h), École du Louvre, Paris.

Other Interests

Art: Surrealism, Hyperrealism (21st century), romanticism (18-19th century) and expressionism.

British culture during the romantic era: literature, science, history, poetry...

Music: Piano and guitar.

Last updated: March 1, 2018
